Advanced RMBI courses, Case Studies, Capstone projects
Enrichment: Professional Qualifications trainings, Internship
Capstone Project

Through in-depth study of an actual business case, students strengthen their ability to apply knowledge from different areas in real-world situations, develop their creativity and critical thinking, and improve their project management skills.

Projects also assist students in establishing future business links.

RMBI students are expected to engage in real corporate projects covering areas of finance, business, information technology and health care etc.
Enrichment Activities
Enrichment Activities

- **Exchange**: Through studying at leading overseas universities, students enrich their global outlook and expand their vision, interpersonal skills, creativity and cultural awareness.

- **Symposium**: This annual symposium aims at providing a platform for experts, professionals to meet and exchange their views, and offers young adults a unique opportunity to learn invaluable first-hand lessons on Risk Management (RM) and Business Intelligence (BI).

- **Mentorship**
  - **Year 1**: Peer Mentor
  - **Year 2**: Alumni Mentor
  - **Year 3**: Corporate Mentor

- **Internships**

- **Seminars and Workshops**

- **Career Talks and Training**

- **Support for acquiring Professional Qualifications**
Which School should I apply? (Application Period)

RMBI students may join exchange programs offered by SBM, SENG and SSCI
(Student may submit application 1 year before exchange)

** Maybe updated from time to time, subject to decision from the exchange program offering school.
A comprehensive Mentoring Program caters to students’ Needs throughout the studies

**Year 1  Peer Mentor**

to provide non-academic support and advice to all new students admitted through both program-based and school-based track
to build strong bonding between the senior and junior RMBI students, and establish a close-tied, ever-growing RMBI community

**Year 2  Alumni Mentor**
to build meaningful relationships between Alumni and current students and experience living examples of how the Program and career can be integrated
to provide practical frameworks, career advice, job hunting skills and professional knowledge for entering the workforce

**Year 3  Corporate Mentor**
to provide students an early connection with professionals from well-established organizations
to help students to bridge their gap between the academic learning experience and business practice, as well as enrich the students' business understanding
Aim at encouraging students with strong academic standing to better equip themselves for future career in RM and BI fields by obtaining professional qualifications.

Maximum number of awards for each student can receive in the RMBI Program is 2 (for two different professional examinations) and the maximum amount for scholarship for each student is **HK$3,000** for the whole study period.

**Eligibility Criteria**
Candidate should be a registered student with active status in at least one regular semester in an academic year of application with:

1. **Obtained Cumulative Grade Point Average (CGA) at**
   - 1st batch of application (Only applicable to RMBI students who will graduate in Fall term)
     - 3.20 or above in Fall term in the application year
   - 2nd batch of application (applicable to all RMBI students)
     - 3.20 or above in Fall term AND a minimum of 2.850 as of Spring term in the application year, OR
     - 3.20 or above in Spring term in the application year

2. **Obtained Pass in**
   - At least ONE Level of the Chartered Financial Analyst (CFA) Credential **[HK$3,000]** OR
   - At least ONE Part of the Financial Risk Manager (FRM) examination **[HK$3,000]** OR
   - IBM SPSS Statistics Level 1 v2 **[HK$1,500]**
