Part 3.

TOOLS FOR ADJUSTING TO EXCHANGE

by Ms. Wendy Cheung
Intercultural Survey Findings

• Understanding factors that promote or hinder cultural competence

• Studies reflect that MINDSET (BELIEFS) about the self and culture can play an important role in shaping a SUCCESSFUL experience overseas.
How To Handle?

• Because your **mindset (beliefs)** influences your levels of anxiety and adjustment and reaction to these feelings during exchange.
Cultural Competence

• These overseas experiences then influence subsequent cultural competence

• Ideally, to get the most benefit from the exchange experience, students should keep a mindset that can help to adjust and reduce feelings of anxiety.
